Fleetguard[®]

Dependable Filtration Solutions for Cummins[®] Engines in School Bus Applications

Every Mile Matters.

For over fifty years, Fleetguard has been designing and manufacturing filtration products to ensure the highest level of engine protection for your engines. And like many of the customers we serve, we are committed to improving safety and reliability through attention to detail in our products and support. Fleetguard is the only brand recommended by Cummins for preserving the longevity of your engines.

Fleetguard Filters Provide:

1. Greater protection against dirty fuel than competitive options by delivering fuel that meets FIE (fuel injection equipment) manufacturers' suggested cleanliness level.
2. Maximum engine performance for optimum fuel economy and reduced impact on the environment.
3. Reliability that ensures the long life of your Cummins engine, proven with millions of miles of lab and real-world testing.

Global fuel analysis shows that fuel contamination levels have doubled over the past few years. The average gallon (3.8 liters) of fuel can contain over 18 million potentially harmful particles. Bad fuel leads to plugged filters, causing a host of problems for your engine. Real world testing that simulates engine vibration shows how previously captured particles are released into the downstream fuel supply.

The FF63054NN featuring NanoNet[®] media is our answer for dirty fuel. Our patented nanofiber NanoNet media is 100% synthetic and offers the highest level of contaminant removal in the industry, even under engine and filter vibration. Make worrying about dirty fuel a thing of the past with Fleetguard NanoNet filters.

GENUINE PROTECTION.

Fleetguard Tested, Cummins Approved

Fleetguard knows exactly what is required for optimal diesel engine protection. No matter what Cummins engine powers your bus, we have your filtration needs covered.

Proper engine protection and maintenance is one more way to ensure bus-riders travel safely between home and school each day. Use Fleetguard UF101 DEF filters to keep your DEF free of contamination and your buses on the move.

2015 Cummins ISB 6.7 (Diesel)	Part Number
Fuel Filter (Primary)	FS1065
Fuel Filter (Secondary)	FF63054NN
Lube Filter	LF3970
Coolant Filter	-
Crankcase Ventilation Filter	CV52001

Fleetguard p/n UF101

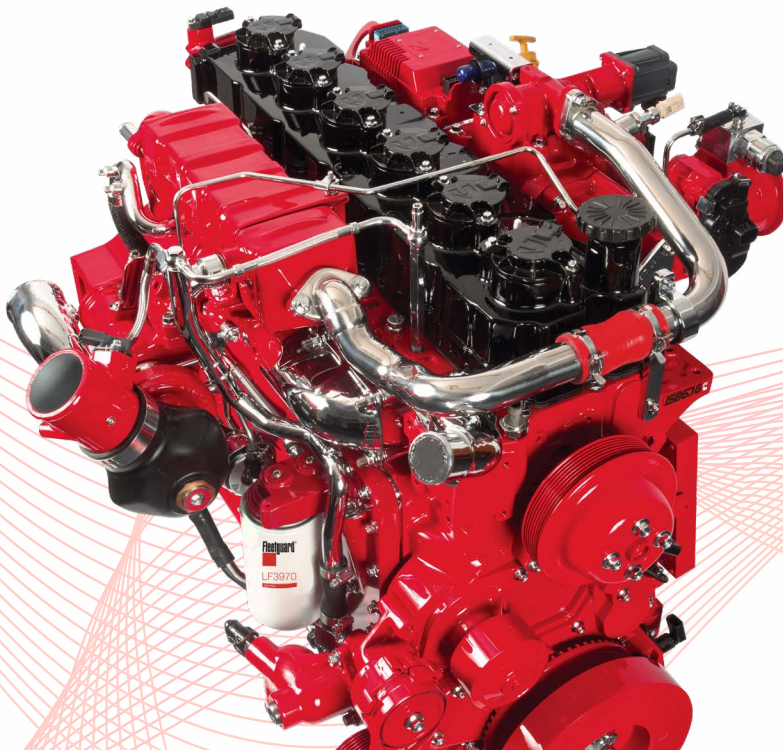

2020+ Cummins ISL9 (Diesel)	Part Number
Fuel Filter (Primary)	FS20121
Fuel Filter (Secondary)	FF63041NN
Lube Filter	LF14002NN
Coolant Filter	WF2071
Crankcase Ventilation Filter	CV50628

2015 Cummins ISL9 (Diesel)	Part Number
Fuel Filter (Primary)	FS1065
Fuel Filter (Secondary)	FF63054NN
Lube Filter	LF9009
Coolant Filter	WF2071
Crankcase Ventilation Filter	CV50628

2017 Cummins ISL9 (Diesel)	Part Number
Fuel Filter (Primary)	FS1065
Fuel Filter (Secondary)	FF5636
Lube Filter	LF14002NN
Coolant Filter	WF2071
Crankcase Ventilation Filter	CV50628

2020+ Cummins ISB 6.7 (Diesel)	Part Number
Fuel Filter (Primary)	FS20121
Fuel Filter (Secondary)	FF63041NN
Lube Filter	LF3970
Coolant Filter	-
Crankcase Ventilation Filter	CV52001

Best Warranty in the Business.

The Fleetguard Warranty extends to our entire line of products, ensuring the same promise of performance and coverage beyond the competition. Visit fleetguard.com to learn more about the competitive benefits of the Fleetguard Warranty.
